Index 1964

of the International Journal of Health Education

This index is divided into a subject index and an index of authors. The subject index carries one or more entries for each item published.

Community health and development

The health of the community and the dynamics of development 25-28
The use of community methods (L.-P. Aujoulat) 158-163
Towards integrated health education activities (Langford L. M. Letlhaku) . 188-198

Conferences

Preliminary programme of the VIth International Conference on Health and Health Education, Madrid, July 1965. 125-134
Proceedings of the Vth International Conference on Health and Health Education: Health education in action 50-52
The health of the community and the dynamics of development 25-28

Cultural factors

The battle against quackery and superstitions in the Philippines (Rodolfo V. Guiang) 141-145

Definitions and concepts

Are we too ignorant to teach? 54-55
World progress and problems in health education (Clair E. Turner). 106-115

Dental health

Health education as a means to prevent dental caries in children (Larissa S. Lipatova) 135-140

Diseases (prevention, treatment, rehabilitation)

An anti-smoking experiment (James Chisholm) 35-41
An approach to anti-smoking activities in schools (Herbert D. Chalke) . . . 183-187
Educational elements in cardiac rehabilitation (John Burton) 75-79
Enteric diseases and health education (John Burton) 57-67
No truce for tuberculosis (M.G. Candau) 44
The role of education in the prevention of cancer (John Burton) 68-74
Towards integrated health education activities (Langford L.M. Letlhaku) . 188-198
Will you help...? 42-43

Evaluated projects and results

An approach to anti-smoking activities in schools (Herbert D. Chalke) . . . 183-187
Easing the information explosion (Allen D. Spiegel) 164-172
Programme planning — an organized approach (John G. McCormick) . . 91-97
The battle against quackery and superstitions in the Philippines (Rodolfo V. Guiang) 141-145
The reduction of accidents to children (James S. Cullen) 176-182
World progress and problems in health education (Clair E. Turner). 106-115

Group discussions and lectures

The impact of people's health universities in the USSR (R. Kaganovitch) 173-175
The reduction of accidents to children James S. Cullen) 176-182

Hospitals

Easing the information explosion (Allen D. Spiegel) 164-172

Industry

The population implosion 120-124

International organizations

No truce for tuberculosis (M.G. Candau; WHO) 44
Three uses of health education in clinical, preventive and public health practice (John Burton; WHO) 56-79
Will you help . . . ? (WHO, International Union against Cancer) 42-43

IUHE

Preliminary programme of the VIth International Conference on Health and Health Education, Madrid, July 1965 125-134
Proceedings of the Vth International Conference on Health and Health Education: Health education in action 50-52
The health of the community and the dynamics of development 25-28

Legislation

Educational elements in cardiac rehabilitation (John Burton) 75-79
Enteric diseases and health education (John Burton) 57-67
The battle against quackery and superstitions in the Philippines (Rodolfo V. Guiang) 141-145

Mass communication media

Easing the information explosion (Allen D. Spiegel) 164-172
The impact of people's health universities in the USSR (R. Kaganovitch) 173-175
The use of community methods (L.-P. Aujoulat) 158-163

Maternal and child health

Easing the information explosion (Allen D. Spiegel) 164-172
Instruction in family life for the handicapped (Medora S. Bass) 29-34

Methods and procedures

An anti-smoking experiment (James Chisholm) 35-41
Are we too ignorant to teach? 54-55
Easing the information explosion (Allen D. Spiegel) 164-172
Educational elements in cardiac rehabilitation (John Burton) 75-79
Enteric diseases and health education (John Burton) 57-67
Health education as a means to prevent dental caries in children (Larisa S. Lipatova) 135-140
Research in the teaching-learning situation in school health (Elena M. Sliepcevich) 2-10
Teaching variations—sorted and listed (Louis J. Peterson) 116-119
The impact of people's health universities in the USSR (R. Kaganovitch) 173-175
The pharmacist—an educator and a friend (Etienne Froidevaux and Henriette Boilleau) 18-23
The reduction of accidents to children (James S. Cullen) 176-182
The role of education in the prevention of cancer (John Burton) 68-74
The use of community methods (L.-P. Aujoulat) 158-163

Motivation

An anti-smoking experiment (James Chisholm) 35-41
An approach to anti-smoking activities in schools (Herbert D. Chalke) . . . 183-187
A travel guide (Albert N. Meyerstein) 23
Research in the teaching-learning situation in school health (Elena M. Sliepcevich) 2-10
The impact of people's health universities in the USSR (R. Kaganovitch) 173-175
The use of community methods (L.-P. Aujoulat) 158-163

National programmes

British Society has new Chairman . . 172
Denmark creates a National Committee for Health Information (E. Toft-Nielsen) 102-103
